Expand your Business

CauveFleet integrate seamlessly with a broad range of finance, operational, maintenance and management information systems to form the entire part of an enterprise wide solution exclusive for fleet owners

CauveFleet is a transport management system to succeed in your business. Whether your business has a fleet of 30 or 10,000 vehicles CauveFleet addresses most of your business bottlenecks. With this web-based easy to use solution you could manage your entire business efficiently from anywhere in the part of the world.

This is an integrated system which will help you prevent costly unexpected breakdown in business due to neglected vehicles and equipments. It also serves as a ready reckon to understand the fleet usage, maintenance, fuel economy, driver management, human resource management, accounting and finance management, maintenance system management, spares/inventory management, vehicle information management and all the necessary expenses associated with operating a successful fleet business.

Your Problem

- NOT ABLE TO TRACK THE USUAL FC DATES
- NOT ABLE TO TRACK WHEN WHICH SPARES HAVE BEEN REPLACED
- NOT ABLE TO TRACK WHEN AND WHY THE SPARES ARE BEING REPLACED-WHEN WAS LAST A HIGH VALUE SPARES HAVE BEEN REPLACED IN THE VEHICLE
- WHERE IS A PARTICULAR VEHICLE NOW?
- WHO IS USING THE VEHICLE FOR WHAT PURPOSE?
- IF A BRANCH IS HIRING A VEHICLE, IS THERE A POSSIBILITY TO KNOW IF SOME VEHICLE IS STANDING IDLE IN ANOTHER BRANCH – WHICH CAN BE SHIFTED TO THE BRANCH WHICH NEEDS THE VEHICLE
- IF A VEHICLE HAS BEEN HIRED FROM A THIRD PARTY, HOW MUCH ITS BEING USED?
- ANY SPARES HAVE BEEN REPLACED FOR THAT VEHICLE
- HOW MUCH FUEL HAS BEEN SPENT ON THAT VEHICLE?
- HOW MUCH BILL HAS TO BE PAID TO THE VENDOR? ETC.,

Our Solution

- BRANCH-WISE TRACKING & MANAGEMENT OF VEHICLES
- MANAGING THE THIRD PARTY VEHICLE DATA
- COMPREHENSIVE REPORTING OF THE STATUS OF VEHICLE, STAFFS, ETC.
- COLLABORATIVE SUITE FOR PERFORMING DAY-TO-DAY TASKS
- TRACKING OF VEHICLE TRANSACTIONS AND AVAILABILITY
- WITHIN FEW CLICKS YOU GET ALL THE
 - VEHICLE INFORMATION INCLUDING THE POSITION OF VEHICLE, TYPE OF VEHICLE, CONTRACT INFORMATION, MAINTENANCE INFORMATION ETC.,
 - DRIVER INFORMATION INCLUDING THE DRIVER DAILY LOG OF ACTIVITIES, ADVANCES, PAYMENTS, SALARY, LOANS ETC.,

Vehicle Management

Vehicle Management module provides a collaborative environment for performing day-to-day tasks. Vehicle Management module covers Daily Vehicle transactions. This module helps track the vehicle and availability. On a click of a button, all vehicle information is generated automatically including the positioning of vehicle, type of vehicle, Customer information, vehicle Contract information, etc.,

Average fuel consumption for different type of vehicles are captured, Definition of tolerance limit for different vehicles can be prefixed and variance can be recorded and reported. Vehicle management module is linked to HR, Accounts & Finance, Vehicle maintenance & master data module.

Manage the entire RTO Regulations, capture mandate RTO Expenses such as Counter permit renewal, fitness certificate, taxes, national permit renewal, permit taxes

Insurance information for all the moving assets is captured. Trigger setting & reminders of insurance expiry information until it is renewed.

HR & Staff Management

Human Resource module streamlines the management of human resources and human capitals. Driver & other staff Information is captured in this module. This section maintains driver information including the Insurance of Drivers, Payment information and performance of drivers & other staffs within the organization.
